

MEET MANOMET'S SHOREBIRDS
WITH PERSONALITY

American Oystercatcher

Meet the American Oystercatcher—a shorebird that really stands out! With its black-and-white feathers, bright orange beak, pink legs, and striking yellow eyes, it's hard to miss. This bird has a super cool skill—it uses its strong beak like a tool to pop open oysters, clams, and mussels for a tasty meal. American Oystercatchers are a true ocean species, rarely straying from where the land meets the sea.

We're on a mission to rally **600 new donors by August 31, 2025**, to help turn the tide for shorebirds! Every gift—big or small—helps us protect these incredible travelers. **Chip in today**, and know that American Oystercatchers (and all of us at Manomet) are giving you a big, grateful squawk of thanks!
