

MEET MANOMET'S SHOREBIRDS
WITH PERSONALITY

Buff-breasted Sandpiper

The Buff-breasted Sandpiper is a fancy-looking bird with soft, buff-colored feathers—and it has some awesome dance moves! During breeding season, the males put on a special show, spreading their wings and strutting to impress the females. These birds are also world travelers, flying from the Arctic tundra all the way to the grasslands of Argentina, Brazil, Uruguay, and Bolivia every year. Unlike most shorebirds that stick to the beach, this sandpiper loves open grasslands and farm fields, making it one of the most unique shorebirds out there.

We're on a mission to rally **600 new donors by August 31, 2025**, to help turn the tide for shorebirds! Every gift—big or small—helps us protect these incredible travelers. **Chip in today**, and know that Buffys (and all of us at Manomet) are giving you a big, grateful **squawk of thanks!**
