

MEET MANOMET'S SHOREBIRDS
WITH PERSONALITY

Diademed Sandpiper

This little bird looks like it's wearing a tiny silver crown! The Diademed Sandpiper has a fancy white stripe on its head that makes it stand out. It lives at high altitudes in the Andes of South America, where it hops around in peatlands and bogs searching for insects and tiny creatures along creeks. Because it lives in such a special habitat, we are working hard to make sure it stays safe.

We're on a mission to rally **600 new donors by August 31, 2025**, to help turn the tide for shorebirds! Every gift—big or small—helps us protect these incredible travelers. **Chip in today**, and know that Diademed Sandpipers (and all of us at Manomet) are giving you a big, grateful squawk of thanks!
