

MEET MANOMET'S SHOREBIRDS
WITH PERSONALITY

Fuegian Snipe

The Fuegian Snipe is a shorebird that lives in the forests and wetlands of southern South America. It has beautiful brown and gold feathers that help it blend into the grass, making it hard to spot! At night, it makes funny whistling sounds as it flies around marking its territory. We are still learning about this mysterious bird and how to keep it safe in the wild.

We're on a mission to rally **600 new donors** by **August 31, 2025**, to help turn the tide for shorebirds! Every gift—big or small—helps us protect these incredible travelers. **Chip in today**, and know that Fuegian Snipes (and all of us at Manomet) are giving you a big, grateful squawk of thanks!
